

## Have your Say on the Future of Aged Care

Help the Council on the Ageing (COTA) Australia and the Older Persons Advocacy Network (OPAN) inform the Australian Government of your views on two major reforms:

- The new Aged Care Act and the rights and other foundational aspects it contains
- Funding principles for a sustainable aged care system

COTA and OPAN are holding consultations in August 2023 and September 2023 to provide a platform for older people, families, carers and people of all ages interested in the future of aged care to share their knowledge and insights.

To have your say about the future of aged care, you can:

- Register for in-person consultation forums across Australia, where you will have the opportunity to provide feedback in a safe and inclusive setting
- Share your views on the future funding of aged care in a COTA/OPAN Aged Care Funding Principles Survey

You can also provide your feedback directly to the Australian Government via surveys and submissions.
